Goodbye Gmail, Hello Office 365!

Office 365

[Click here to log in](#)

I use a Mac. Can I still get Office for free?

Absolutely! Microsoft have just launched Office 2016 for Mac (ahead of the PC version!) and you can download it at home onto your own Mac from your Office 365 home page. [View this page for instructions](#)

What do I need to know about Office 365?

Hertford Regional College is pleased to announce the launch of Microsoft's Office 365 as the College's new student email, online storage system and more.

All students now have an Office 365 account. That means you get:

- Online Email (Outlook)
- Online Storage (OneDrive) - you can store a whopping **terabyte** of files in the cloud!
- Online Office - Create and edit Word and other Office files from OneDrive
- **Free** apps for your smartphone!
- **Free** full versions of Office software to download on your home PC!

How do I log in? / What's my student email address?

Please use the link above to get to Office 365 for the time-being.

Once there, if you are logged into a college PC using Internet Explorer, you should be automatically signed in.

If you are at home or using another browser (e.g. Chrome), you will need to log in with:

Your student email address: This is your usual College username followed by @student.hrc.ac.uk (e.g. 123456@student.hrc.ac.uk)

Your password: this is the normal password you log onto College PCs or Moodle with.

How do I forward my college emails to my personal email address?
