

# WHISPER

Whisper is a way that you can report any safeguarding concerns you may have anonymously. We would prefer to speak to you direct but understand that in some cases you may not wish to do this so we give the opportunity for us not to know your identity. In some cases this may mean we are unable to assist as much as we would like but we do guarantee we will respond to your concern.

To use this service you can access one of two ways:

## Text Message

You can text the number **07860 021 323**, at the start of your message put HRC1 and then write and send your message. We will not be able to see your number but will be able to reply.

## Online Form

if you go to this link <https://swgfl.org.uk/whisper/hrc1/> you will be able to make a report anonymously. Leaving your email address will mean you will see when we have replied but we will not know your email address.

Or use this **QR code**:

We will respond and our aim during the week and in term time is to do so within 24 hours, out of term time and at weekends may take longer.
